

The background of the entire image is a photograph of several carved and lit jack-o'-lanterns. They are arranged on a stone ledge or steps, with some in the foreground and others in the background. The pumpkins are illuminated from within, casting a warm, orange glow. The carvings vary, with some showing classic triangular eyes and jagged mouths, while others have more intricate or abstract designs. The overall atmosphere is festive and Halloween-themed.

HALLOWEEN LOT
DECORATING
